

## INTERVIEWING A CLASSMATE

**Meet with the person assigned to be your interview partner. Ask at least six of the following questions and record your partner's answers on this sheet. Try to discover something unique and special about your partner. You can make up a few of your own questions as well.**

1. What are your "vital statistics:" name, height, age
2. What sports do you like? Or hobbies? What do you do in your free time?
3. What is the weirdest thing you've ever done? Why did you do it?
4. How long have you lived in Oakland? Where else have you lived?
5. What person do you most admire and why?
6. What is your best school subject?
7. What is more important, love or money? Why do you think so?
8. What do you think you'll be doing when you're thirty years old?
9. What is something you hope will happen to you?
10. What is your favorite color?
11. If you were an animal, which would you be, and why?

**Look over all your notes and write a two sentence summary about your partner. Be sure that you include the person's name. You'll have to select the things you feel are most important or that show your partner's uniqueness. You won't use every detail.**

**You'll be asked to share what you've written with the class. Take notes below during the presentations, because you'll need to use what you've learned about your classmates for our next assignment.**

# Who is it?

Can you answer all the questions about your classmates below?

<b>How many students in this class are taller than 5'4"?</b>	<b>Who was born in Boulder, Colorado?</b>	<b>How many people in this class like to hike in their free time?</b>	<b>Who has a parrot named Spike?</b>	<b>How many students in this class have a twin brother or sister?</b>
